## KICK OFF

My name is Murphy and I am a creator. Creativity and building things have always been my passions, from artwork, to cooking, to full stack web applications. Entertaining, energetic, and possessed with a passion to learn, I am looking to join creative teams that love to create as much as I do.

## EXPERIENCE

### WEB DEVELOPMENT

GENERAL ASSEMBLY | JAN 2018 - APR 2018

- Built full stack web applications, React-rails, MERN stack
- Integrated third party API's for geolocation and traveling
- Implemented responsive design for mobile use
- Collaborated on version control and project merging using github

### TEACHER'S ASSISTANT

UNIVERSITY OF NORTH GA | JAN 2014 - JUNE 2015

- Demonstrated teaching skills by helping students understand difficult concepts
- Demonstrated collaboration skills by planning meetings for students to attend tutoring sessions

## EDUCATION

### WEB DEVELOPMENT IMMERSIVE 14

GENERAL ASSEMBLY | JAN 2018 - APR 2018

### A.S. BIOLOGICAL SCIENCE

UNIVERSITY OF NORTH GA | JAN 2014 - MARCH 2016

## SKILLS

- React
- JavaScript
- Ruby on Rails
- CSS
- SQL

## SAMPLE WORK

NEWGRINDS | [HTTPS://NEWGRINDS.HEROKUAPP.COM](https://newgrinds.herokuapp.com)

Newgrinds is a coffee shop finding app I created, using FourSquare's places API, along with Google's Navigation API. The 5 nearest coffee shops will be displayed based on geolocation, or user input. When a shop is selected, a quick blurb on traveling time and distance will be rendered for the user.
